

Great lighting makes all the difference, so make sure you

GET THE LIGHT RIGHT!

Avoid using one central source of light. Use two or three sources of light to create different moods by layering the room with light.

Cotterell
LIGHT CENTRES

Good lighting is an essential element of interior design and yet many people regard it as a finishing touch, when ideally it should be considered at the beginning of the design scheme, before the paint and fabrics. Good lighting is crucial to the look of a room as it creates atmosphere as well as fulfilling a practical function.

Cotterell Light Centres have the creative and inspirational lighting solutions for your home, whatever your style, taste and budget. In their unique and extensive showroom in the church on the corner of Grange road and Causewayside you will find the most comprehensive range of lighting anywhere covering every area of the home from garden to the bathroom with specially created lifestyle sets complimented by an eclectic range of furniture and beautiful and unusual home accessories. All this at the great prices that Cotterell's have become famous for, due to their policy of sourcing direct from around the world.

Which also means you can find original lighting here to make your décor stand out from the crowd!

There has never been more variety in lighting. In view of this Cotterell's friendly, knowledgeable staff are on hand to take you through the myriad of lighting possibilities and to help you to make the right choice by offering the best creative and technical lighting advice.

Cotterell light centres strive to furnish their domestic and commercial clients with the best independent lighting advice combined with a strong commitment to great customer service.
